

QUALIFICATIONS

BSc, Otago University, 1997

Post Graduate Diploma in Science, Marine Science, Otago University, 1999

MSc, Physical Geography (hydrology), Victoria University, 2010

ROLE AT CAWTHRON

Craig is an Ecohydraulics Scientist within the Coastal & Freshwater Group. He is involved in a wide range of research and consultancy projects – specifically in the application of ecohydraulic modelling and assessment of minimum flows.

SPECIAL INTERESTS & ACHIEVEMENTS

Craig's interests are in freshwater ecology, wetland hydrology and groundwater – surface water interaction.

Craig's present research interests are:

- Flow setting methods for spring-fed streams
- Population dynamics in small streams
